Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art neither teaches, nor fairly discloses the instant medical device with a surface coating which combines chlorhexidine free base and chlorhexidine salt, wherein the ratio of free base to salt is between 1:1 and 1: 1.5, and wherein the concentration of both is 2.0 (w/v)%. The closest prior art such as US Patent 6,872,195 and EP 0 379 269 which uses one form of chlorhexidine (usually the salt form) and sometimes combine it with triclosan. The combination of both the chlorhexidine free base and chlorhexidine salt is not taught in the prior art for use in a medical device coating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
